

WHAT'S NEW @ D.R.S.

The Inside Scoop at DeHaan Remodeling Specialists

Come on Out!

THE WATER'S FINE.

The DeHaan Remodeling Specialist showroom, located at 2805 West Main in Kalamazoo, has a new bathroom. And while it's a fully functioning, three-piece bathroom, complete with comfort-height toilet, a furniture-style vanity cabinet and a gorgeous shower, it's also a way for us to give our clients some ideas about how great a remodeled bathroom could look in their own homes.

Models on computer screens are terrific, but it's even better to give people something they can see and touch. We made our model bathroom 5'6" wide by 10'8" long – a standard size in most homes – just so people could imagine something similar in their space. If your own bathroom is bigger than that: Great! We've got all sorts of options for you we can talk about.

We asked our design expert, Mary Quinn, owner of Legacy Design, LLC, to keep you -- our client -- in mind for this project. We told her you would want something timeless, not too trendy, but with an edge. Mary came up with what she describes as a "marriage between classic and contemporary," and we think you'll like it. She chose 24" x 24" porcelain tiles for the floor (heated, of course), and a combination of four different styles of tile, in a palette blending blues and grays, for the shower and the walls. She says that it's the tile that gives the model "the wow factor," but it still shows you something you could do at home, with as little or as much customizing as you want to do.

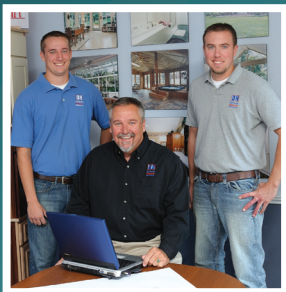

Come see our touch-less lavatory faucet and our shower's deluxe door, its multiple show heads (one of them hand-held), and its seating.

If you've been wondering whether your bathroom could do with a makeover, but you don't know where to start, come check out our new model. And if you're still not sure that you'd be comfortable in a shower like ours, give us a call. We'll loan you the key to the building and you can come out and take it for a test-shower.

We'll even supply the towels. Not that's an offer the big-box stores won't ever make you!

IT'S ALL IN THE DETAILS
