

# WHAT'S NEW @ D.R.S.

The Inside Scoop at DeHaan Remodeling Specialists

SPRING EDITION 2019

## LIGHTING

**Pendant Lighting is by Quoizel**

The right decorative Lighting can be the finishing touch to tie your whole project together.

## COUNTERTOPS

**Osinskis chose LG quartz countertops, in color pattern 'Juniper Trail'.**

Combining surfaces of wood, glass, steel and stone created a balanced composition.

## CABINETS

**Featured are antique white Shaker Door style cabinets by Great Northern Cabinets**

Quality craftsmanship in your cabinets is a must! This is one thing you don't want to skimp on.

## THE OSINSKIS REMODEL *Time* FOR AN UPGRADE!

The Osinskis' Texas Township home, which they had built in 1990, had served them well as their children, Sydney, now 17, and Ryan, 16, were growing up. During those child-rearing years, Vicki Osinski says, "We put everything else on the side." But now the kitchen needed an upgrade. "We thought that was all we'd do," Vicki says.

To find a remodeling contractor, Vicki and her husband, Mark, turned to the internet. The first contractors who answered their call came ready to give estimates, but, Vicki reports, never even took measurements or asked the couple any questions. At that point, she says, "We thought we might not remodel after all."

Then they met DeHaan Remodeling Specialists, Inc. "We were very impressed when Bob [DeHaan] walked in," Vicki says. "He knew what he was talking about."

By this time the Osinskis saw that the potential for upgrades could go well beyond the kitchen. Like many homeowners, they could see the value in refreshing many other parts of the house, too. Vicki says she was overwhelmed by the thought of the project. "I didn't know exactly what I wanted. You have to show me what

something will look like." After several meetings with DeHaan Remodeling, however, the plan came together. And, with the help of DeHaan-recommended Mary Quinn, owner of Legacy Design, colors, flooring, cabinets, tiles, backsplashes and more were chosen and, in April 2018, the family and the construction team were ready to go.

**The hardwood flooring throughout the main level is a pre-finished hickory.**

*"We're very happy and excited," says Vicki Osinski, of the family home's brand- new look and efficiency.*

## THE OSINSKIS REMODEL - continued

Starting that month, with work now planned not only for the kitchen, but also including a new mudroom, flooring on the whole lower level of the house, a redone bathroom, and a fireplace conversion in the living room, the family of four started spending a lot more time in their sun room. Vicki says that Jorden DeHaan, who was on site every day, and his brother, Branden, who oversaw the project, made sure to minimize the household disruption during the work. Vicki says of Jorden DeHaan: "He was responsible and respectful. I can't say enough good things about him." The DeHaans kept Vicki and Mark updated as things went along, and—much to Vicki's relief—were able to limit the time the laundry room was inaccessible to just one day. Construction was not only on time, but, says Vicki, even faster than expected.

The project was completed in July 2018, just three months after work began. And now, more than eight months later, says Vicki, the DeHaans still "come right out to fix any minor things we find."

Not only would the Osinskis definitely call DeHaan Remodeling for their own future projects, but they have already enthusiastically recommended the company to others.

# IS YOUR HOME READY TO TAKE YOU INTO YOUR GOLDEN YEARS?

As a trusted Certified Aging-in-Place Specialist in south-west Michigan, we have the knowledge and technology for designing and building enriching, barrier-free 'Home for Life' environments. Modifications can range from the installation of bath and shower grab bars and adjustment of countertop heights, to the creation of multifunctional first floor master suites and widening of doorways and hallways.

We start out by learning more about your specific needs and assessing your home to find potential problem areas. We'll provide recommendations on ways to improve accessibility and comfort in your home as you grow older.

Call us to find out what solutions are best for you.
